Overview

translated by Google

The guided tour begins at sunset next to the reception center in the historic village of Castelo Melhor.

Marco welcomes you and gives you recommendations for this trip through Time!

The descent to the Coa Valley (6 km) is in a 4x4 vehicle between ancient stone walls, olive groves and traditional almond groves. Along the descent we have a remarkable panoramic view of Quinta de Erva Moira, one of the most beautiful Quintas in the Douro.

We begin to travel through time guided by the guide's skill, imagining mountain goats, herds of primitive bulls, horses and deer grazing along the banks of the river and a group of hunter-gatherers who attentively follow the herds preparing for the hunt!

We parked next to the Coa River and when we got out of the car, the sounds, smells and sky enveloped us! We awaken the senses in harmony with the natural environment.

A short walk (300 m) takes us to the 1st of 5 rocks.

By turning on the beaming light, we open the window of time and reveal the art of our ancestors in all its splendor!

Breathtaking landscapes between ancient stone walls, olive groves, almond groves and vineyards. The guided interpretive tour allows you to discover the landscape at the same time as we travel back in time to the Upper Paleolithic where we can see, in the place where they were recorded, rock art with approximately 30 thousand years of history!!! The natural riverside environment, the sounds and smells are the perfect setting for this journey through time!

Castelo Melhor (Pass By)

Meeting point is in the historic village of Castelo Melhor.

The Castelo Melhor castle is one of the best examples of a secondary medieval fortress, built in one of the most peripheral areas of the peninsular kingdoms.

The original work is Leonese and dates back to the beginning of the 13th century, when there was an intense fortification of the Riba-Cõa line, an area constantly disputed by the Portuguese and Castilian monarchs. It was in this context that Afonso VII, in 1209 or 1210, ordered the construction of the fortress, simultaneously giving it a charter, in an attempt to consolidate population and military, which proved to be of relative importance in the following two centuries.

Less than a century later, with the Treaty of Alcanices (1297), Castelo Melhor passed to the Portuguese crown

Stars and prehistoric rock art

Debra_K, May 2024

Phenomenal! Marco is enthusiastic, interesting, and makes the trip really fun. He brings prehistory to life. And we had an amazing view of the night sky at the end of our tour of the rock art.

Response from Host, May 2024

Admire the art of our ancestors

Joachim_V, Oct 2025

It begins with a ride in the off-road vehicle into the sunset. The 30,000-year-old engravings can be seen particularly well in the dark with artificial lighting. The Führer explains everything in detail. An unforgettable experience!
